Value Proposition

A Home That's Already Complete

This home offers the benefit of a newer build combined with the comfort and completeness of a thoughtfully finished residence. Key interior and exterior improvements have already been completed, allowing buyers to enjoy the home immediately.

The Advantage

Buyers avoid post-closing projects, contractor coordination, and additional out-of-pocket expenses. This home delivers immediate comfort, functionality, and livability—improvements that are often added over years, already completed and ready to enjoy.

Market Position Within Leander ISD

Within the Leander ISD–zoned portion of the community, Highland Homes are known for construction quality, thoughtful floor plans, and long-term desirability. Opportunities to purchase a Highland home in this section are increasingly limited, with only a small number of inventory homes and remaining 60' lots available. Most current inventory homes are south or southwest facing, while 1220 Calendula offers a north facing orientation. Combined with its oversized lot and extensive owner improvements, this home is well positioned within Leander ISD and stands out among remaining builder offerings.
